e-learning module

Oil tanker training system

ADVANCED

This e-learning module is a part of our e-TOTS competence management system. This is the Tanker Officer Training Standard over and above STCW requirements as set by INTERTANKO

This module provides training at an advanced level for officers and other personnel onboard oil tankers who have immediate responsibility for the loading, discharging and care in transit or handling of cargo. This e-learning module comprises a specialised training programme appropriate to their duties
